**Dear Honorable Congressional or Legislative Representative:**

As a private landowner and taxpaying citizen, whose interests have not been heard throughout the history of the ongoing Mille lac Treaty Lawsuit, nor the ongoing Secretly Negotiated ongoing Treaty Harvest Management Plan, we respectfully request that you support our request that the Minnesota Legislature hold a public legislative informational hearing at the High School in Onamia, during the upcoming 2014 legislative session. We respectfully request that the hearing be held during the latter part of March so local citizens who love the sport of fishing and sports fishing tourism operators have time to organize citizen testimony and studies to officially present to the State of Minnesota, including the Department of Natural Resources, after the current ice fishing season.

Sincerely,

---
